1. Recently T-34 and other tanks of a new type (sic)\* arrived by rail and road in the Allentsteig-Gospfritz training area. Up to three transports have arrived daily. There are 50% more tanks in the training area now than during the past year. The increase in numbers is due partly to movements from winter quarters, and partly to the arrival of new troops and tanks. There are more troops in the area than last year.

\* ☐ Comment: There is no clarifying information concerning this tank of a new type.
